

COMERCIAL VEHICLE ENGINE OIL

# **NISOTEC DIZEL S-3 SAE 50**

Engine oil

Fuels with increased sulfur content

Anticorrosive properties

Mineral

**NISOTEC DIZEL S-3 SAE 50** is a monograde engine oil intended for the lubrication of diesel engines of commercial vehicles and various off-road machinery. It is designed for the lubrication of older four-stroke diesel engines, of classic construction, which can also use fuel with an increased sulfur content and which operate in conditions of high external temperatures or have increased oil consumption. It is formulated with base oils and a quality additive package, which ensures improved anti-corrosion protection of the engine, control of the formation of deposits and soot.

## **Applications:**

- Older four-stroke diesel engines, classic designs, with and without turbochargers, requiring API CD quality level and which operate in conditions of high external temperatures or have increased oil consumption
- Commercial vehicles and various off-road machinery

| Characteristics        | Advantages  |  |
|------------------------|---|--|
| Anti-corrosion         | It provides good anti-corrosion protection in all working conditions, |  |
| protection             | which enables a long working life of the engine                       |  |
| Control of deposits in | Prevents the formation of deposits and sludge in the engine, which    |  |
| the engine             | enables a longer engine life  |  |
| Stable viscosity       | The protective oil film, stable throughout the application period,    |  |
|                        | ensures a stable viscosity within the gradation                       |  |

#### **Specification:**

- API CD/SF;
- MB 227.0;

**Typical characteristics** 

| Characteristics                                  | Method      | NISOTEC DIZEL S-3<br>SAE 50 |
|--|-------------|-----------------------------|
| SAE Viscosity grade                              | SAE J300    | 50                          |
| Kinematic viscosity at 100°C, mm <sup>2</sup> /s | ISO 3104    | 18,0                        |
| Viscosity Index                                  | ISO 2909    | 92                          |
| Total Base Number TBN, mg KOH/g                  | ISO 3771    | 9,0                         |
| Pour Point, °C                                   | ISO 3016    | -18                         |
| Flash Point (COC), °C                            | EN ISO 2592 | 235                         |
| Density at 15°C, kg/m <sup>3</sup>               | EN ISO 3675 | 897                         |

#### Health, Safety and Environment

Information on the safe handling, storage and disposal of the product, as well as information on precautionary measures and potential hazards, effects on human health and the environment can be found in the Product Safety Data Sheet (SDS). Store the product in its original packaging protected from atmospheric influences. Shelf life 5 years from the date of manufacture.
